Why does the business have to be privately owned?

Our products can only be placed in certain types of retail businesses. For example, Verve and Vemma cannot be placed in large commercial franchises or big box retail stores. Small business owners that have local franchises or a couple stores are encouraged to apply for retail placement of our products. If you want to discuss this with us please call. We have case studies and can show success with different industries so please call if there is any question.

This sounds too good to be true – what is the catch?

We have chosen to work with small businesses to distribute and retail our products. By working closely with you and teaching you how to use referral marketing, we save millions on national ad campaigns. We can put this savings in your pocket and help build a strong base of small business owners. We believe in you and want to see you succeed!
